

Series 8 Condenser Dryer with ProTex drum and 8kg capacity.
RRP AUS \$1,899.00

Product Details

FEATURES

Auto Off Function Switches off the machine when the cycle is complete.	16 programmes	XXL clear door	Large LCD control panel with stainless steel inlay
Inverter motor	Internal drum light	Woolmark (TM) silver certification	Sensor Drying

BENEFITS

Uniform gentle drying
Delicates like synthetics or knitwear need added care during tumble drying. Our ProTex dryers give the best possible protection against wear and fading, to keep your garments looking newer for longer. Our ProTex dryer range features a new soft pattern drum design, and in combination with special airflow system, guarantees gentle treatment for all your clothes.

The gentle way to protect wool
Our ProTex dryers have one of the gentlest wool programs ever. The precise drum movement control achieved by the advanced inverter motor technology, makes the wool program truly remarkable and so gentle that it has been awarded the prestigious Woolmark Blue certification. The ProTex soft drum design, XXL extra large drum and special air flow system ensures uniform drying with reduced creasing.

Silence is golden
The same inverter motor technology that ensures a long lifetime and gentle drying also gives ultra silent operation. With Silent System, a specially engineered drying circuit and noise insulated cabinet mean even the most powerful cycles are no louder than 62dB(A).

Wide door opening and transparent door
The XXL drum has a 380mm wide porthole making it extremely easy to load and unload even your largest duvets. Our double-glazed glass door in our ProTex dryers, ensures the exterior touch temperature is always extremely cool. It offers an elegant design feature that's a perfect match for our ProTex washing machines.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Dryer Type	condenser
Capacity (Kg)	8
Wall mount option	no

ENERGY

Energy Efficiency Star Rating	2
Energy Consumption (KWhr/yr)	358

DIMENSIONS

Total height (mm)	850
Total width (mm)	600
Total depth (mm)	580

CONTROLS

Type of controls	push button,electronic interface,electronic push button,electronic rotary
Options available	delicates setting,delay start,internal drum light,auto sensing,timer drying,reverse tumbling action,wave lifters,buzzer
Type of display	LED
Fabric type selection	cotton,synthetics,wool,delicate

BUTTON FUNCTIONS

DRYING PROGRAMS

BUTTON FUNCTIONS

Reminder/ Indicators	clean lint filter reminder,empty water container,alarm,end of cycle,condenser,buzzer
Functions	power/on/off,Start/Pause,auto sensing,Anti crease,clean filter reminder,buzzer,Delay Start

DRUM

Spin tub material	stainless steel
